

CALFED BAY-DELTA PROGRAM

Office Memorandum

Date: June 9, 1998

To: Interim Interagency Watershed Advisory Team (IIWAT) Members

From: Judy Heath *JH*
Watershed Management Program

Subject: Nomination of Organizations to Serve on the new Bay Delta Advisory Council (BDAC) Watershed Work Group

At the June 8 IIWAT meeting, Lester discussed the proposal to develop a BDAC Watershed Work Group. He requested nominations for about 15-20 organizations representing a balance of interests and geographic diversity. To help us, I have attached the organization/agency list from the Watershed Stakeholder and BDAC meetings conducted by CALFED.

Please select about 15-20 organizations you believe represent a balance of interests and geographic diversity. You may notice that the list is deficient in listing Bay Region or San Joaquin River area organizations. Also, private landowners are not listed. If you know of others which should be nominated, but are not on the list, please feel free to nominate new additions. The goal is to obtain a manageable number on the BDAC Watershed Work Group and optimize representation, that is, organizations which can represent a large number of stakeholders. After the organizations are selected, we will ask the organizations to self select their representative to serve as a member on the BDAC Watershed Work Group.

Please fax your nominations by Friday, June 12. My fax number is 653-5699.

Thank you for your help.
